AI-First

AGENCY APPROACH

Every solution powered by intelligence

"Dhandha" = Business · "Saarthi" = Strategic Guide

We are your charioteer in the battle for market share.

AI DEVELOPMENT

WEBSITE ENGINEERING

PERFORMANCE MARKETING

THE PROBLEM WE SOLVE

Most Agencies Deliver Deliverables. We Deliver *Outcomes.*

Indian businesses are losing ₹50,000–₹5,00,000/month to outdated websites, zero AI strategy, and marketing agencies that report on vanity metrics instead of revenue.

01

No More Siloed Solutions

One team. Strategy, tech, marketing, AI — all aligned toward a single number: your revenue growth.

02

Dhandhasaarthi was built to fix this.
We're not a vendor. We're your growth partner — with skin in the game and a mandate to generate measurable ROI.

AI-Powered, Not AI-Washed

We don't put "AI" in our deck for optics. We build real LLM tools, automation pipelines, and AI agents that cut your operational costs by 30–60%.

03

Full-Stack Accountability

We own the outcome. Our engagement models are tied to your growth milestones — not our billable hours.

WHAT WE DO

Every Service, One Goal: *Your Growth.*

We cover the full spectrum of digital transformation — from your first website to enterprise-grade AI automation. No matter where you are, we know the next move.

SERVICE 01

SERVICE 02

Website Development

Custom-coded websites, WordPress, Shopify stores, SaaS platforms, and landing pages engineered for speed, conversion, and search ranking — not just aesthetics.

CUSTOM CODE

INDUSTRIES WE SERVE

**We Speak
Your
Industry's
*Language.***

Every industry has different growth levers. We've studied them. Whether you're a D2C brand or a B2B SaaS — we know what moves the needle in your specific market.

E-commerce & D2C

Healthcare & Wellness

EdTech & Education

Startups & Founders

Real Estate

Local Businesses

SaaS Platforms

Digital Agencies

Fintech & Finance

Food & Hospitality

Fashion & Lifestyle

Manufacturing & B2B

CASE STUDIES

Numbers Don't Lie. Neither Do We.

Below are structured case studies based on the problems we solve and the results our approach consistently delivers. Specific client names available upon request.

CASE STUDY 01

E-commerce Brand

D2C • SHOPIFY

THE PROBLEM

D2C brand spending ₹80k/month on ads with 1.2x ROAS. No conversion tracking, no funnel optimization, poor product listing quality. Revenue plateau for 8 months.

OUR SOLUTION

RESULT

Rebuilt Shopify store architecture, implemented GA4 + GTM tracking, redesigned ad creatives with AI video, restructured Meta funnel into TOFU/MOFU/BOFU stages.

3.8×

ROAS in 90 days. Monthly revenue grew from ₹4L to ₹14L. Ad spend remained constant.

CASE STUDY 02

B2B SaaS Startup

SAAS · AI TOOLS

OUR SOLUTION

Built programmatic SEO infrastructure with 200+ landing pages, implemented technical SEO overhaul, optimized for Google AI Overview and ChatGPT citations.

THE PROBLEM

Series A SaaS with strong product but no SEO presence. All traffic from paid. CAC was ₹12,000 per user. Needed organic growth engine.

RESULT

340%

Organic traffic growth in 6 months. CAC dropped from ₹12k to ₹2.8k. 3 featured in Google AI Overviews.

CASE STUDY 03

Service Business

LOCAL BUSINESS · AUTOMATION

OUR SOLUTION

Built a custom AI automation stack: AI chatbot for lead qualification, n8n workflows for onboarding, automated

THE PROBLEM

Professional services firm wasting 40 hours/week on manual tasks: lead follow-up, report generation, client onboarding. Scaling was impossible without more headcount.

RESULT

62%

Reduction in operational overhead. Team now handles 2.5× more clients without

reporting dashboard, and GPT-powered proposal generation.

adding headcount. ROI achieved in month 2.

WHY DHANDHASAARTHI

The Reasons Our Clients Don't Leave.

We're not the cheapest. We're not the biggest. But we might be the most accountable agency you've ever worked with — because we treat your money like it's ours.

AI-First in Everything

We don't add AI as a feature — we design with intelligence at the core. Every solution we build leverages AI to **do more with less**, faster than traditional approaches.

Revenue, Not Reports

We measure success by one metric: **did your revenue grow?** We build attribution systems, track unit economics, and optimize toward business outcomes — not vanity metrics.

Full-Stack Accountability

When strategy, development, and marketing are all under one roof, there's no blame game. **One team owns the entire outcome** — and we own it completely.

Speed as a Competitive Weapon

We build fast and iterate faster. In a market where your competitor's move today becomes your loss tomorrow, **speed of execution is strategy.**

Data-Driven, Not Opinion-Driven

Every recommendation we make is backed by data. We set up measurement frameworks before we begin, so you can see exactly **what's working and why.**

Built for the Long Game

We don't want a one-time project. We want to be the agency you're still working with in year 5. **We only win when you win** — and we're built for that partnership.

HOW WE WORK

Our 6-Step Growth System.

Every Dhandhasaarthi engagement follows this framework. It's not a project plan — it's a growth operating system designed to create compounding results over time.

01

Discovery

02

Research

03

Strategy

Deep-dive audit of your business, market, competition, and current digital performance. We find the real levers — not just the obvious ones.

Competitor analysis, keyword research, customer persona mapping, and technology audit. We build on intelligence, not assumptions.

A concrete 90-day roadmap with prioritized actions, expected outcomes, KPIs, and budget allocations. No vague "digital transformation" decks.

04

Development

We build. Fast. With weekly sprints, demo calls, and full GitHub/project transparency. You always know exactly where we are.

05

Marketing

Activate organic, paid, and AI-powered channels simultaneously. Test fast, double down on what works, kill what doesn't. Data-led from day one.

06

Scaling

Once the system works, we scale it. New channels, automation, AI optimization, and market expansion. The flywheel begins to spin on its own.

CLIENT ENGAGEMENT

Choose How We Work Together.

We've designed three engagement models to match different stages of business growth. No cookie-cutter packages — just the right structure for where you are and where you're going.

MODEL 01

MOST POPULAR

MODEL 02

MODEL 03

Project-Based

A defined scope, timeline, and deliverable. Perfect for businesses that need a specific output: a website, an AI tool, a campaign launch, or a complete rebrand.

- Fixed scope and clear deliverables
- 1–12 week timelines
- Milestone-based payment
- Full IP transfer on completion
- Post-launch support included

₹50k –
₹10L /

project

Monthly Retainer

An embedded growth team for your business. We handle strategy, execution, and optimization across marketing, tech, and AI — every single month.

- Dedicated team across all disciplines
- Weekly performance reviews
- Unlimited strategy calls
- Priority execution SLA
- Monthly ROI reporting
- Proactive growth recommendations

₹30k –
₹1.5L / month

Growth Partnership

For ambitious businesses ready to scale. We co-invest in your growth with a reduced retainer plus performance-based incentives tied to your revenue milestones.

- Lower base retainer
- Revenue-linked bonuses
- Quarterly OKR setting
- Full-stack execution team
- Board-level strategy access
- We win when you win

OUR VISION FOR 2025-2030

"The businesses that win the next decade are the ones that build AI and automation into their DNA — not as tools, but as culture."

— Dhandhasaarthi Team

AI as a Business Function

We're building toward a world where every SME has access to the same AI capabilities as Fortune 500 companies — at a fraction of the cost.

Automation—First Operations

Helping 100+ businesses eliminate repetitive operations and redirect human energy toward high-leverage, creative work by 2026.

Data as Competitive Advantage

Building the data infrastructure that lets our clients make faster, better decisions than their competitors — permanently.

Indian Businesses, Global Standards

Bringing McKinsey-level strategic thinking and Silicon Valley-grade tech execution to Indian businesses at accessible price points.

READY TO GROW?

Let's Build Something *Remarkable.*

Start with a free Growth Audit. We'll analyze your current digital presence, identify your biggest revenue leaks, and show you exactly where the opportunity is — at no cost, no commitment.
